

To Whom it May Concern:

McElhanney Consulting Services Ltd. contracted Gary Robins *COMPANY* to do extensive clean up of the landscaped areas at the Surrey office. These areas had not been maintained for a long period of time and were totally overgrown. Gary removed all the weeds, shaped the decorative shrubs and applied bark mulch where required. The work was carried out in a professional and efficient manner over the course of one week at a very competitive price.

I would not hesitate to recommend Gary for any work of this nature and when the need arises will contact him to do follow-up work.

Yours very truly,

McELHANNEY CONSULTING SERVICES LTD.
